

Furniture hardware

Company REJS after more than 20 years of operations achieved the leading position among manufacturers of equipment for kitchen and wardrobe furniture.

Distinguishing feature of the company is having its own sales network - 16 warehouse centers located across Poland. This strategy enables the supply of the necessary equipment, accessories and fittings also for small furniture manufacturers, reducing lead times.

Catalogue "Furniture hardware" provides an overview of products which complements REJS's production and is directed to furniture manufacturers. The items listed in the catalog are available in constant sales. Selected suppliers of products provides diversity offer in ratio terms of price to quality. Offered products are distributed in sales of both wholesale and retail.
