

HANDLES AND FURNITURE KNOBS

hooks | aluminium frames | glass

Finishing touches at the highest level

Decorative elements make the interior more stylish. Beautiful handles emphasize the character of the furniture and add uniqueness to the furniture. REJS furniture handles collection is elegance, practicality, and high durability. The rich choice allows you to match the handle to any interior - minimalist, modern or traditional.

In REJS offer we have a choice of edge and recessed models, as well as railings, screwed and knobs. Most are offered in several sizes and different coverings. Different Their color palette is also diverse. REJS handles (depending on the model) are available fashionable matte black and lacquered white, but also, among others, in classic chrome, brushed nickel and satin nickel, copper, gold and platinum. All in order to be able to perfectly match the handle to the character of furniture.

The offer also includes impressive hooks - modern, classic and stylized, in several fashionable colours. In addition - aluminum profiles with different surface finish you can create a modern fronts suitable for modernist and loft interiors. As a filling of fronts made of aluminum profiles glass fillings, which also REJS offer are included. Their range consists of one-coloured, satin, three-dimensional and also printed panels with any graphics. The additional service of cutting formats for any purpose is also a great facilitation.
