# About us

REJS is a family business founded in 1993, a successful and dynamically growing company recognized as one of the leading producers of furniture accessories in Europe. We are experts in production of wire, steel and aluminum fittings. Our products are broadly distributed over our domestic market. They are also present abroad, including Germany, Sweden, Norway, Finland, Denmark, France, Great Britain, Russia and Australia.

Since several years of its successful development REJS have gone far beyond furniture business. Taking an advantage of modern machinery park and highly competent staff of engineers REJS provides a vast range of outer services in metal processing area. We act as a subcontractor and supply retail, advertising, medical and automotive industry. We support our partners at every stage of product design and development and our professional tooling department supplies all necessary tools to make production processes easy and most effective.

Great experience in non-standard production, an individual and customer oriented approach, accurate calculations, on-time deliveries and high quality are our basic standards!

Feel free to try us out!
